

Portima Connect Product Owner

Context

We are looking for a PO with sound experience in projects below. He or she will work in close collaboration with the Director (Cécile Louvrier) and the other members of the Connectivity Tribe. He must be the guardian of the agile way of working in Portima Connect teams.

About us

Portima has adopted a Product-oriented organization with full-scale agile scrum adoption. It is based on 3 tribes: Connectivity, Brio, MyBroker.

We strongly believe that success is based on sharing the agile values within our company: Empowerment, Continuous learning, Transparency & Collaboration.

Portima Connect

An ambitious project roadmap has been established. We have begun in 2022 the realization of our product vision. We want to transform all Portima Connect services. Goal is to expose all services in the cloud with all the necessary security measure. In parallel, we want to reduce the local footprint on the broker side.

We have differences services for Portima Connect :

- SSO

Broker single sign on for all Portima and company applications. The long term goal is to do an evolution to Active Directory federation.

- EDIMERX

A communication API system between brokers and Insurance companies to exchange secure formatted messages

- Broker Client portal
 - Portima Connect services (Febiac, Dedale, Form, Brokersign, Profil, ...)
 - DIV application (used for car registration)
 - MyPortima as target portal for Portima Connect Services,
 - Company Explorer (with a new project Broker entry point. It's the new entry point to all company modules)

- Contextual Exchange

We have developed an intelligent copy paste between broker management system and company application. Goal is to replace this system with a new conversation API between broker package and company application.

In practice

- 🕒 Translate business/technical requirements into a clear backlog. Create and update the product backlog with the proper level of detail. Understand and follow the priority. She / He must be the guardian of the backlog sanity for the connectivity tribe.
- 🕒 Help the squad to organize, prepare & run a continuous cycle of pre-refinement, refinement meetings to prepare for the next product increment
- 🕒 Manage and plan the sprints in collaboration with the agile ambassadors.
- 🕒 Help to delivery oversight on the strategic initiatives in order to ensure a timely & on budget delivery of the outcomes
- 🕒 Check that the complete product life cycle is followed (going through the staging and full testing stages with checking the prerequisites for security, BCP, backup and monitoring.)
- 🕒 In the product cycle, manage the versions of the different APIs and the evolution of the product documentation.
- 🕒 If necessary prepare and follow the reporting with the team to be able to present a clear view of the project's evolution
- 🕒 Be sure that the different problems or bugs are encoded in the backlog and are taken care of by the team.
- 🕒 With the help of the agile ambassador, do the facility communication between the different members of teams (offshore/nearshore/ onprem)
- 🕒 If needed, be able to act as an interface between customers and the technical teams to ensure that requests and problems are properly handled.

Must-Have Qualifications

- Minimum 5 years relevant work experience in Agile development team
- In-depth knowledge of Agile processes and principles
- Prior experience using Jira
- Analytical and integrative mindset

- Language – Fluent in EN & at least one of following languages: FR/NL, passive skills in the other language

Nice-to-Have Qualifications

- Previous working experience as a Product Owner or project manager
- Experience with MS Azure
- Experience in Insurance Sector
- API-first mindset with experience on API platform (such as Microsoft API platform) it's a nice to have

Soft skills

- Team player who is humble, pro-active and people-smart
- Outstanding communication and presentation skills
- Excellent organizational and time management skills
- Sharp analytical and problem-solving skills
- Creative thinker and attention to details

Portima

Portima is a **fintech** company. We provide digital solutions and IT services to the community of independent insurance brokers, insurance companies and to the customers of **the brokers**. **Portima is a customer & product-oriented organization with full-scale agile scrum adoption.**

Our mission is the following: By offering digital, secure and innovative solutions, as partner of the brokers and the insurance companies, Portima increases your productivity and sparks customer delight.

Working @Portima means:

- Being part of a fintech company
- Participating in all Agile scrum ceremonies (Product Increments/Sprint planning, PI/Sprint demo, Daily Stand up,...)
- Evolving in a company that values empowerment and continuous learning (licenses to the best learning platforms on the market)
- Having fun within a strong team and with all the Portimates through many activities organized by our Happiness Team
- Working in a flexible way with 2 days at the office and 3 days a week in remote

Plus, you will be able to evolve in a dynamic company that offers a very attractive salary package with cafeteria plan, group and hospitalization insurance, meal vouchers, and access to numerous training platforms
